

PE and Sport Premium

Primary school PE and school sport: new funding

Background

1. In April 2013, the Government announced new funding of £150 million for physical education (PE) and sport. This funding should be used to improve the quality and breadth of PE and sport provision.
2. Funding will be allocated to all maintained and state-funded schools with primary phase pupils, including: primary, middle, special and non-maintained special schools, academies and pupil referral units from 1 September 2013. A typical primary school will receive about £9,250 annually in the academic years 2013/14 and 2014/15. Our school received £8,415.
3. Schools are free to determine how best to use this funding to improve the quality and breadth of PE and sport provision, including increasing participation in PE and sport so that all pupils develop healthy lifestyles and reach the performance levels they are capable of.

How will we be spending the PE and Sport funding and who will benefit?

At Killamarsh Infant and Nursery School we are investing £800 of our funding in affiliating to the North East Derbyshire School Sport Partnership (NED SSP). NED SSP is passionate about improving the lives of young people, by providing opportunities through Physical Education and Sport.

NED SSP will provide a core package to support the school in;

Physical Education

- Continuous professional development signposting and support
- Inclusion training and support
- PE and School Sport Audit

Competition

- Level 1 School Games (intra-school) support
- Access to Level 2 School Games calendar appropriate for age group (inter-school – cluster / district)
- Access to Level 3 School Games events (qualification only)
- Membership of the Derbyshire School Sports Association

Leadership & Volunteering

- Mini Leader programme - training / mentoring
- Bronze Young Ambassador programme (Y5 only)
- School Sport Organising Crew development (primary / junior)

Club & Community Links

- Signposting to local clubs through competition programme

Physical Activity

- Midday Supervisor training
- Active lunchtime programme
- Early Rider Infant cycling programme (infant only)

Other features

- Support for schools to achieve School Games Kitemark for PE and Sport
- Cluster and Individual School development through a PE and School Sport audit
- Sharing of good practice through regular PE Coordinator/Headteacher meetings at cluster and SSP level
- School Sport Partnership Conference (KS1 event)
- For more information please visit the partnership website www.nedssp.co.uk

Our school has completed an audit of PE, school sport and physical activity to inform how to effectively maximise the impact of the sport premium funding. Therefore, in addition to our affiliation to the NED SSP, we have allocated the following:

- Lead Practitioner support. NED SSP Lead Practitioners are supporting our staff to develop their confidence and competence to deliver high quality physical education. As well as having an impact on staff confidence, it is also having an impact on pupil attainment
- New equipment (£2000) has been purchased to enable staff to teach games/multisports effectively including equipment for orienteering. Children have access to a wider range of materials. They are accessing athletics activities and also equipment to enable them to raise their heart beat and challenge themselves as well as compete against others. Sessions organised by NED SSP at the local leisure centre with other schools give staff support in delivering training and ideas using our own children and working with another school in the cluster.
- The school has now a sports apprentice (£4180 + £500 training costs)

Purpose of the project

- To support the development of physical activity across the school.
- To put into place more opportunities for physical activity for all children

- To support staff in the school in PE and sport sessions with growing knowledge of how children develop and ideas for promoting more able children and children with movement difficulties.
- To ensure the children have access to good quality sporting activities and more focused support.

Physical Literacy

- Our FSP scores show that many children have problems with core stability. A regular programme of Physical Literacy takes place three times a week with a group of identified children. The programme is followed with them and assessment data is already showing improvement in their fine motor skills in writing and creative activities. Their listening and concentration skills have improved and we are monitoring their levels to see how much progress they make.

Access to Sports Clubs

- The use of the sports apprentice has enabled us to provide access to sports clubs for children at lunchtime. Children who receive Pupil Premium funding have been targeted and families we know would not be able to access after school provision. The take up for clubs is good and the children have attended well and their skills are developing. This is also showing through their confidence in the classroom and ability to work together.

Physical Development in the Nursery

- Our sports apprentice has worked with the Nursery staff to develop outdoor play with a focus on gross motor skills through games and the use of equipment preparing the children for future games and sports. This has proved popular with all children and runs alongside the Forest Schools programme for the Nursery.

Training for Staff

- The staff are to take part in a days training focusing on developing PE within the school and PE lessons. (£250)

Dance/movement

- £300 has been spent on a range of resources to support movement and dance an area where staff feel less confident. The use of a range of prerecorded programmes support staff development and also encourage the use of recorded music to develop their own dance sessions.

Playground equipment

- Playground equipment has been updated and supplemented to ensure the continuity of the activities taking place over lunchtime involving all children. (£250)
